

SAFETY FIRST - NON-TIP TYGA-DOLLY

How To Pack A Tyga-Box

PACK PREP

Place empty Tyga-Box into Tyga-Dolly. Roll Tyga-Box up to contents to be packed.

PACK

Remove ReddiRails from lid top and insert into slots inside box. Hang files on ReddiRails or simply pack box with contents and interleaf lids to close.

SAFETY TIP: always unpack from top drawer first!

LABEL

Place mover label onto E-Z Peel Placard, align all E-Z Peel Placards facing in same direction, comfortably stack to 5 high, and Tyga-Boxes are ready to be moved.

STACK

Place another empty Tyga-Box atop one that's packed.

MOVE

UNPACK

Reverse the stacking process, nesting one empty Tyga-Box inside the other.

SAFETY TIP: unpack to the bottom drawer first!
